Saginaw Valley State University Meal Plans
2014-2015

What is a meal plan?
A meal plan lets you eat on campus easier and faster, all while saving you money. They consist of meals to the the all-you-can-eat Marketplace at Doan, and/or Declining Balance which acts like a dining debit card that can be used at any dining location.

How can a meal plan save me money?
If you purchase meals to the Marketplace, they are cheaper per meal than the door rate. This price per meal goes down the more you buy. If you get Declining Balance, you save 6% on every purchase. If you plan on eating on campus at all, getting a plan just makes sense.

Who can have a plan?
Anyone can have a meal plan. They are mandatory for freshmen living on campus and are set up through their housing contract. For everyone else, plans are optional.

How do I get a plan?
There are several ways to get a plan:

1) Add a plan to your student bill and pay for it with financial aid
2) Sign up online at svsufood.com
3) Stop by Dining Services in Curtiss 122
4) Call us at 989.964.4252
